Insurance Company Referral List

When choosing an insurance company, there are other things to consider beside premium costs. Saving a few dollars on your premium may cost you hundreds or thousands of dollars when it comes time to actually use your insurance. If your insurance company uses unfair practices, or refuses to pay the necessary costs to repair your vehicle properly, the premium savings become worthless.

Below is a list of insurance companies that we find fair, easy to work with, and treat their customers well. If an insurance company is not on our list it doesn't necessarily mean they are a bad company. It may mean that we haven't dealt with them enough to recommend them. And just because they make the list doesn't mean they are the perfect company. Personnel changes are constant, and it is the people who shape your experience with an insurance company.
